

## Contract Pack Vault

# Smarter contract packs, smoother transactions

An altogether better way to accurately prepare and securely share your contract packs.

Contract Pack Vault automates and simplifies the process so you can ensure quality and completeness every time. By eliminating all unnecessary enquiries at the start of the process you can remove frustrating delays and progress transactions along more efficiently. Make transactions faster and smoother for all, with Contract Pack Vault.

### Key features

#### Put an end to unnecessary enquiries

- Users are guided on which documents and forms are required based on the address of the property and transaction details, so nothing is missed
- Contract pack checks are confirmed to buyers' conveyancer so they know what is available and what is missing
- Documents are automatically analysed and identified, then checked for issues
- Documents are securely shared within the Contract Pack Vault platform so nothing gets lost

#### Made to fit with the way you work

- The contract pack process is standardised, so you can have confidence that all packs are created consistently and comprehensively, regardless of user experience levels
- Contract Pack Vault is built as a standalone solution that sits alongside your existing processes
- It's also available as an agnostic API integration into your core systems

#### Resilient and secure, for your peace of mind

- Upload and share information in a secure encrypted environment
- Built-in virus scanning on every document
- Developed as part of Landmark Information Group's ecosystem, who have over 30 years of experience and are trusted by government and every top 20 property law firm

#### For faster property transactions

- Contract Pack Vault is part of Landmark Connect; a seamless solution designed to make more efficient transactions a reality for everyone
- Open and accessible – it's easy to connect and share with others involved in the property process, securely
- Tackles the communication issues and delays that often hold up property transactions
