#### We're taking action

We're acting now to make sustainability matter in our business and have set targets for net zero.

02

#### Our expertise

Use our in-house sustainability consultants who are not only driving net zero and ESG in our business but also helping clients to achieve the same goals.

03

#### **Providing solutions**

We offer detailed data on climate change for every part of the property cycle. Use us to help your firm transition to a better future.

04

#### **The Landmark Academy**

Keep your law skills current. Learn from our leading UK environmental law experts when and where it suits you. Training made easier for busy professionals.

# Climate change bespoke training modules.

For residential conveyancers and property lawyers who want to provide best practice due diligence and inform their clients on future climate change risks, our climate change course and bespoke training enables you to have a better understanding and confidence when giving advice.

There is ample evidence from Earth itself that there is no time left for prevarication or procrastination.

Even at present levels of global warming, the climate impacts are as unpredictable as they are injurious. However good our efforts at decarbonisation, we cannot escape the need for widescale investment in adaptation, with stronger parties stepping up to protect the vulnerable.

#### Dr Robert Lee

Professor of Birmingham Law School

#### Who are these designed for?

Any lawyer or law firm involved in giving advice on climate change to a client.

#### What is the outcome of attending this workshop?

These training sessions are designed to give you a good understanding of climate change, how the law has developed internationally and within the UK and how it will be implemented in different industry sectors. The training will give you the confidence to provide advice to clients.

#### **Topics**

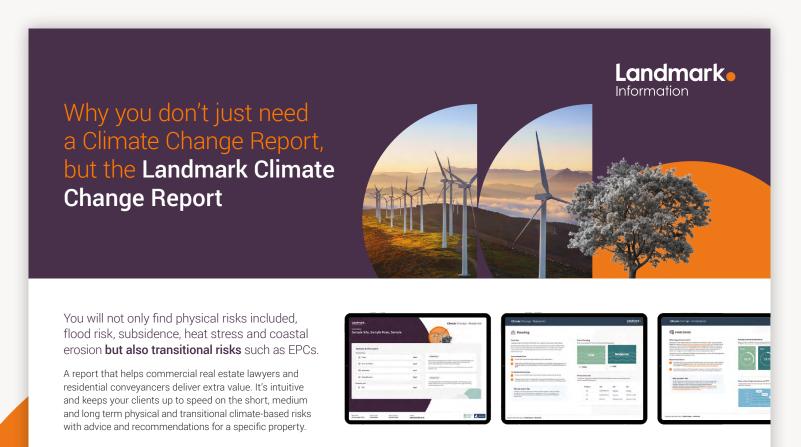

Topics included are:

- · Introduction to climate change
- · Climate change and environmental principles
- · History of international climate change legislation
- · Policy responses and regulatory approaches: UK climate change law
- Incorporating climate change risks within property due diligence
- Climate action for law firms: net zero
- · Climate action for law firms: TCFD

These sessions can be provided online or in-house.

# Net zero science based target workshop.

Many organisations and businesses have either already started net zero commitments or are considering how to reduce their climate impact.

To set targets and reduce the climate impact of your organisation, you will need to understand and measure the greenhouse gas (GHG) emissions associated with your business operations to identify the primary sources of emissions.

#### Who is this designed for?

Any role within a law firm which either advices clients on net zero, or involved in the firms net zero / sustainability strategy.

#### What is the outcome of attending this workshop?

Designed for a firm who is just starting their net zero strategy and requiring help to understand what to record, how to be compliant, and setting science-based targets.

#### **Topics**

Topics included are:

- Kick off meeting to understand net zero journey so far
- How to measure carbon emissions
- Setting science based targets
- Near term targets
- Net zero targets
- · Carbon reduction measures

# The taskforce on climate-related financial disclosures workshop.

From 6 April 2022, over 1,300 of the largest UK-registered companies and financial institutions will have to disclose climate-related financial information on a mandatory basis – in line with recommendations from the Task Force on Climate-Related Financial Disclosures. This will include many of the UK's largest traded companies, banks and insurers, as well as private companies with over 500 employees and £500 million in turnover.

The law society guidance also raises questions on how a firm can be more resilient to climate change. As part of this, you may wish to consider implementing TCFD into your financial or annual reports.

#### Who is this designed for?

Any role within a firm who is responsible to implement disclosure of climate-related risks and opportunities and involved in business strategy.

#### What is the outcome of attending this workshop?

Designed for a firm who is needing to/ or wanting to disclosure climate-related risks and opportunities within the firm and understand their financial exposure and build resilience for the future.

#### **Topics**

Topics included are:

- Introduction to TCFD
- Governance
- Strategy
- Risk management
- · Metrics and targets

Workshops require an audit of current TCFD compliance and will provide implementation techniques on how to improve disclosure and CDP scores. These sessions can be provided online or in-house.

### ESG services.

Landmark's Risk Horizon platform allows you to quickly understand ESG risks and help frame due diligence questions. It aggregates over 100 of the world's most credible datasets so you can profile, evaluate and prioritise risks with confidence.

Landmark Information is a Licensee of the Sustainability Accounting Standards Board (SASB). The board seeks to connect businesses and investors on the financial impacts of sustainability. SASB Standards enable businesses around the world to identify, manage and communicate financially material sustainability information to investors.

As a SASB Licensee, Landmark Information benefits from being part of a growing movement of organisations that are striving for standardised, global ESG metrics.

Landmark provide two main options for clients wanting to utilise Risk Horizon:

- 1. Managed service ESG screening reports available from the consultancy team at Landmark
- 2. Self-serve software subscription for using the Risk Horizon tool internally to imbed into existing ESG due-diligence processes

#### Who is this designed for?

Any lawyer or law firm involved in ESG due-diligence for corporate transactions or those advising on mergers and acquisitions including those with private equity and investment clients

- ESG Screen reports are suitable for any early stage or pre-due diligence activity on corporate transactions
- More detailed managed service reports allow ESG management to be scored against industry benchmarks either on the buy or sell side of a deal
- ESG Screen reports are also suitable for client review purposes to assess reputational risk of who you represent and can form part of an annual assessment.
- Risk Horizon can also benefit firms looking to perform gap analysis for clients in terms of understanding ESG risks and opportunities, view risks by industry profile and geographical footprint
- Reports can be used to support RFPs to showcase a firm's ESG credentials Supply chain screening - Understanding the risk profile of a client's supply chain and benchmarking performance across risk factors from climate change to human rights
- Top level ESG policy or strategy review

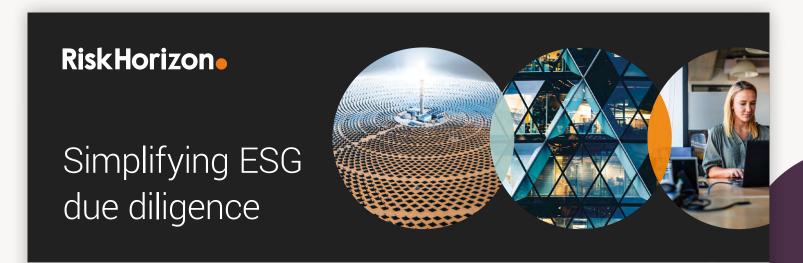

Latham has long been at the forefront of legal advice on ESG. To help us navigate the breadth and complexity of ESG issues, particularly when handling global transactions involving many different countries and legal regimes, we use the Risk Horizon platform and reports as a part of our ESG due diligence.

Paul Davies, Latham & Watkins Co-Chair ESG Taskforce

### Additional services from Landmark Information.

Landmark's **Risk Horizon** platform is an intuitive ESG screening and management tool that provides a flexible and adaptive approach to understanding ESG risks and opportunities for you and your clients.

You can interact with the tool in a way that suits your needs through direct access to the software, or via managed service reports which present ESG information and data in a simple and easy to interpret way.
